

Prescription (Rx)

Patient: Isabella Martinez

Age: 62

Date: 2025-04-20

MRN: MRN100027

Diagnosis: Arthritis (ICD: M13)

Medication and Instructions:

Prescription for Isabella Martinez, 62 years old, diagnosed with arthritis:

1. Meloxicam 15mg tablets - Take one tablet by mouth once daily with food for pain and inflammation relief.
2. Acetaminophen 500mg tablets - Take two tablets by mouth every 6 hours as needed for additional pain relief.
3. Capsaicin cream 0.025% - Apply a thin layer to affected joints up to 4 times daily for localized pain relief.

Follow up with your healthcare provider in 4 weeks to assess the effectiveness of the treatment plan and make any necessary adjustments. Be sure to report any new or worsening symptoms to your doctor.

Patient Instructions:

Hello Isabella,

Remember to take your medication as prescribed by Dr. Lewis. Take note of any potential side effects such as nausea or dizziness. If you experience any concerning side effects or have trouble with your medication, don't hesitate to contact Dr. Lewis immediately. Your health is important, so always prioritize your well-being.

Stay healthy,
