

## **Prescription (Rx)**

Patient: Ava Nguyen

Age: 28

Date: 2025-07-09

MRN: MRN100019

**Diagnosis: Arthritis (ICD: M13)**

### **Medication and Instructions:**

Prescription for Ava Nguyen:

Diagnosis: Arthritis

1. Celebrex (Celecoxib) 200mg - Take one tablet by mouth once daily with food to help reduce inflammation and pain associated with arthritis.
2. Methotrexate 10mg - Take one tablet by mouth once a week on the same day each week to help slow the progression of joint damage in arthritis.
3. Naproxen (Aleve) 500mg - Take one tablet by mouth every 8-12 hours as needed for breakthrough pain.

Instructions: Follow up with your rheumatologist in 4 weeks for a medication review and assessment of your arthritis symptoms. Make sure to monitor for any side effects and contact your healthcare provider if you experience any new or worsening symptoms. Additionally, engage in regular physical activity and maintain a healthy diet to support overall joint health.

### **Patient Instructions:**

Hello Ava,

1. Take your medication as prescribed by Dr. Walker, at the same time each day to ensure effectiveness.
2. Be mindful of potential side effects such as dizziness, nausea, or allergic reactions. If you experience any of these, contact Dr. Walker immediately.

## **Mayo Clinic Northwest**

654 Wellness Circle, Healing Heights, WA 98101

3. If you notice any changes in your symptoms or have concerns about the medication, do not hesitate to reach out to Dr. Walker for guidance.

Take care and stay healthy,
